

Vim

Star

350

Fork

18

The WakaTime plugin works for both Terminal Vim (<http://www.vim.org/download.php>) and Graphical Vim (<http://www.vim.org/download.php>) and is open-source on GitHub (<https://github.com/waketime/vim-waketime>).

Using Vundle

(<https://github.com/gmarik/vundle>)

Installing

1. Install Vundle (<https://github.com/gmarik/vundle>) for Vim.
2. From terminal run:

```
echo "Plugin 'waketime/vim-waketime'" >> ~/.vimrc && vim +PluginInstall
```

3. (Re-)start Vim and enter your API key (</settings/account?apikey=true>) , then press Enter . 
4. Use Vim like you normally do and your time will be tracked for you automatically.
5. Visit <https://waketime.com/dashboard> (<https://waketime.com/dashboard>) to see your logged time.

Upgrading

1. Inside Vim, press ESC .
2. Type `:PluginUpdate` and press Enter .

Uninstalling

1. Remove the line `Plugin 'waketime/vim-waketime'` from your `~/.vimrc` .
2. Restart Vim.

Using Pathogen

(<https://github.com/tpope/vim-pathogen>)

Installing

1. From terminal run:

```
cd ~/.vim/bundle && git clone git://github.com/wakatime/vim-wakatime.git
```

2. (Re-)start Vim and enter your API key (</settings/account?apikey=true>), then press Enter . 
3. Use Vim like you normally do and your time will be tracked for you automatically.
4. Visit <https://wakatime.com/dashboard> (<https://wakatime.com/dashboard>) to see your logged time.

Upgrading

1. From terminal run

```
cd ~/.vim/bundle/vim-wakatime && git pull origin master
```

Uninstalling

1. From terminal run

```
cd ~/.vim/bundle && rm -rf vim-wakatime
```

This command will only remove the plugin from Vim, but will keep your `~/.wakatime.cfg` with your API key and configuration.

2. Restart Vim.
